DETAILED ACTION

Rejections Repeated

1. The 35 U.S.C. 102 rejection anticipated by Okawa et al. of claims 16-22,24,27-30 has been repeated for the reasons previously stated in Paper 3.
2. The 35 U.S.C. 103 rejection over Northrup et al. in view of Okawa et al. of claims 1-10,12-25,27-30 has been repeated for the reasons previously stated in Paper 3.
3. The 35 U.S.C. 103 rejection over Northrup et al. in view of Okawa et al. and in further view of Billarant of claims 11 and 26 has been repeated for the reasons previously stated in Paper 3.

Response to Arguments

4. Applicant's arguments filed 11/24/03 have been fully considered but they are not persuasive.

In response to applicant's argument that Okawa nor any other reference either alone or in combination of fail to teach or suggest a substrate in which first yarn predominates one surface of the substrate and a second yarn predominates another surface of the substrate, Okawa does teach a substrate in which the first yarn predominates one surface of the substrate (figure 4 number 10 wherein the top surface comprises mostly yarn 10 therefore predominates the top surface) and a second yarn predominated another surface of the substrate (figure 4 number 20 yarn wherein the bottom surface comprises mostly yarn 20 therefore, predominates the bottom surface).

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., the conditions required to meet the definition of predominate) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). The examiner defines predominate to mean to have a greater quantity or importance of fibers relative to each surface, therefore, in figure 4 fibers 10 and 20 read on applicant's predominate.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
